Arvin Global Solutions

At Arvin Global Solutions (AGS), our goal is to provide manufacturers with solutions to their challenges. And in industry today, there are two prevailing problems that our clients are reporting.

- 1) WORKLOAD:** Manufacturers are very busy and need to partner with quality organizations that can serve as suppliers or offload resources.
- 2) WORKFORCE:** Manufacturers are having a difficult time finding qualified people for a wide variety of roles.

Because AGS strives to focus on meeting the real-world needs of manufacturing, we are pleased to introduce the **AGS CONNECT** Program. Using our extensive network, the **AGS CONNECT** Program can serve as a bridge for successful connections between manufacturing companies, as well as with skilled workers in the manufacturing sector.

*Take advantage of the extensive
AGS Network to make connections
with the organizations and people
you need.*
